StrideUp®

ADVANCED TECHNOLOGY SURFACES

StrideUp® è la tecnologia rivoluzionaria che combina un'elevata resistenza allo scivolamento e una morbidezza di superficie unica. StrideUp® garantisce un elevato coefficiente di attrito dinamico, ideale per pavimentare zone ad elevato calpestio e, al tempo stesso, possiede una superficie morbida, facile da pulire e da igienizzare. Il gres porcellanato StrideUp® è versatile, risponde a importanti esigenze di sicurezza e offre continuità tra ambienti interni ed esterni: **una soluzione sicura, pensata con stile.**

Caratteristiche bordi Bricco, Irregolo, Mini Irregolo.
Eventuali disomogeneità dei bordi perimetrali nei moduli Bricco, Irregolo e Mini Irregolo sono da considerarsi non come difetto, ma come caratteristiche del prodotto che, esattamente come accade per i materiali artigianali, possono variare da una produzione all'altra.

Edge features Bricco, Irregolo and Mini Irregolo.
Any lack of homogeneity in the perimeter edges of the Bricco, Irregolo and Mini modules should not be considered as defects, but as distinguishing features of the product which, as is the case for craft-based materials, may vary from one product batch to the next.

Eigenschaften der Kanten Bricco, Irregolo und Mini Irregolo.
Eventuelle Unregelmäßigkeiten der Kanten bei den Modulen Bricco, Irregolo und Mini Irregolo sind kein Mangel, sondern eine typische Eigenschaft des Produkts, die, genau wie bei handwerklichen Materialien, von einer Produktion zur anderen variieren können.

Caractéristiques des bords Bricco, Irregolo et Mini Irregolo.
Les éventuelles irrégularités des bords des modules Bricco, Irregolo et Mini Irregolo sont à considérer non comme des défauts mais comme des caractéristiques du produit qui, exactement comme sur les matériaux de fabrication artisanale, peuvent varier d'une production à l'autre.

Características de los bordes Bricco, Irregolo y Mini Irregolo.
Las posibles irregularidades de los bordes perimetrales en los módulos Bricco, Irregolo y Mini Irregolo no deben considerarse un defecto, sino características del producto que, exactamente como ocurre con los materiales artesanales, pueden presentar variaciones de una producción a otra.

Характеристики кромки Bricco, Irregolo и Mini Irregolo.
Возможную неравномерность периметральной кромки в модулях Bricco, Irregolo и Mini Irregolo следует рассматривать не как дефект, а как особенность продукта, которая может варьироваться в различных партиях, как это часто бывает с ремесленной продукцией.
